

**Specific directions for NPC- installation to
cash register Casio TE7000/8000 and QT-2100/6000**

During purchase transactions, the point-of-sale system sends the receipt lines of max. 40 characters/line to the **NPC**.

Important:

The data format of the interface of the point-of-sale system should be set to **19,200 baud, 8 bit, no parity** (default setting).

Direct connection via RS232 instead:
